Use Determination & Recommendation:

Has the use existed since November 28, 1975? ☐ Yes ☐ No ☒ Unknown
Comments:

Is the evaluated use attainable? ☐ Yes ☒ No

Comments: The UAA was conducted in June 2005, and no WBCR was observed. The stream did not meet the maximum depth or average depth criterion at any of the 3 sites evaluated. The stream was dry at some points. No interviews were conducted. Because of the overall shallow depth of the stream, the committee recommends removing the WBCR designation.

Committee Recommendation: ☐ Retain Use ☐ Modify Use ☒ Remove Use ☐ Inconclusive
